

ASSIGNMENT AND ITS SOLUTION OF CSPP DESIGN

assignment and its solution pdf

The assignment problem is a fundamental combinatorial optimization problem. It consists of finding, in a weighted bipartite graph, a matching in which the sum of weights of the edges is as large as possible. A common variant consists of finding a minimum-weight perfect matching.. It is a specialization of the maximum weight matching problem for bipartite graphs.

Each time the New Year rolls around and I sit down to do my annual resolutions, I reflect back to a lesson taught me by a remarkable teacher. In my mid-20s, I took a course on creativity and innovation from Rochelle Myers and Michael Ray at the Stanford Graduate School of Business, and I kept in touch with them after I graduated.
