In activity based costing method, to identify cost drivers is very necessary for unit cost and total cost. We know that activity-based costing is based on the concept that products consume activities and activities consume resources. From activity pools, we can find cost drivers.

Cost Drivers examples | Accounting Education

This is a good overview of why cost allocation is important and methods for doing so. I would advise that the finance/audit committee review the cost allocation plan and present it to the Board for Board approval, not just Executive Director/CEO approval.
