In accounting, the Inventory turnover is a measure of the number of times inventory is sold or used in a time period such as a year. It is calculated to see if a business has an excessive inventory in comparison to its sales level. The equation for inventory turnover equals the cost of goods sold divided by the average inventory. Inventory turnover is also known as inventory turns, merchandise ...

Based on a modified approach of Katz , the information about the skills of the best manager could be clustered into three main categories. These are: human skill, conceptual and organizational skill, and technical skill. As shown in Table 1, each main category is composed of different skill items that `the best' project managers possess.
