The Volvo Modular Engine is a family of straight-four, straight-five, and straight-six automobile piston engines that was produced by Volvo Cars in Skövde, Sweden from 1990 until 2016. All engines feature an aluminum engine block and aluminum cylinder head, forged steel connecting rods, aluminum pistons and double overhead camshafts.

Maintenance. Several manufacturers list the transmission in their owners manuals as fill for life, meaning that there are no scheduled transmission fluid changes under normal operating conditions.. Transmission experts recommend regular fluid changes for severe driving condition, every 80,000 KM. Specific fluid must be used.
