1.. A systematic approach to encourage pro-environmental behaviour Various environmental problems pose a threat to environmental sustainability, among which global warming, urban air pollution, water shortages, environmental noise, and loss of biodiversity.

Encouraging pro-environmental behaviour: An integrative

In the last two decades foodborne illness outbreaks and cases associated with fresh produce have rapidly increased (Warriner et al., 2009).Scharff (2010) estimated that produce (fresh, canned or processed) causes 20 million illnesses (24%) costing 38.6 \$ billion every year in the US. Produce was infrequently recognized in the US as a vehicle of illness outbreaks/cases in the 1970s (0.7% and 1% ...

The medical uses of silver include its use in wound dressings, creams, and as an antibiotic coating on medical devices. Wound dressings containing silver sulfadiazine or silver nanomaterials may be used on external infections. There is tentative evidence that silver coatings on endotracheal breathing tubes may reduce the incidence of ventilator-associated pneumonia.
