A washing machine (laundry machine, clothes washer, or washer) is a device used to wash laundry. The term is mostly applied to machines that use water as opposed to dry cleaning (which uses alternative cleaning fluids, and is performed by specialist businesses) or ultrasonic cleaners. The user adds laundry detergent which is sold in liquid or powder form to the wash water.

If your old or new washing machine makes noise during the spin cycle we have some useful DIY repair tips here to fix your machine. A washing machine making a loud noise when spinning means a part has become worn out or loose. The issue that is causing the loud noise could be a number of different parts inside your washer.

### **How To Fix A Washing Machine Making Noise During The Spin**

The under-counter Whirlpool ice machine is a stand-alone \$2000 appliance which makes gourmet clear ice such as for a wet bar. (Yes, that is what it originally cost in today's dollars before the current era of cheaper imported appliances.)
