I've got a 2008 60HP Bigfoot Merc on an 08 Lowe. The control box is real clean looking - Chrome with just F, N, R and the Tilt switch. Having issues since I bought the boat keep the throttle in place between about 3500 and 4500 RPM's if I don't keep my hand on it it will slip back.

A WetBike is a planing water motor cycle that is often described as cross between a motorcycle and a jet ski.. The original Wetbike was introduced in 1978 by Spirit Marine, a subsidiary of Arctic Enterprises (now known as Arctic Cat).The Wetbike is challenging to ride, because it does require a good deal of balance. It was powered by a Suzuki two-stroke engine, and a

small pump-jet.
